You will need ...

- seeds
- soil
- sun
- water
- time (two to four weeks)

Ready? Set ... GROW!

**FIRST**, buy sweet corn seeds (no, popcorn won't work! :-)

**SECOND**, pick your seed "contestant" and give it a name!

**THIRD**, plant the seeds according to the directions on the package, and water them as they grow ... keep a diary!

**FOURTH**, harvest & measure

**FIFTH**, analyze your data & declare a winner!

**Plant Growth 101:**

- **#1** the seed softens and sprouts
- **#2** the root grows down
- **#3** the shoot grows up
- **#4** multiple leaves form
